SIDE STREET UPDATES

WELCOME,

Another year and The Classic Rock Band "SIDE STREET" is hopeful that our economy bounces back soon. All over the country things are pretty stagnant. The entertainment industry in particular and especially in our area have been greatly scaled back. A lot of business establishments have stopped running live entertainment completely or downsized to the point of just hiring D J's in an effort to keep the costs under control.

SIDE STREET is celebrating its 34th year together this year and hopefully many more to come.. As a reminder keep asking your favorite watering hole that you visit on weekends and suggest getting Side Street to perform there. Side Street is continuing to learn more tunes for your dancing and listening pleasures. Keep your requests coming.

Hopefully you are aware that Side Street played on 98.1 Ocean

Rock in Ocean City, Maryland for one hour of live music, Side Street has been the only band to play over the allotted time slot due to public demand. Did I mention that their studio is located at SEACRETS. night club? The band had a great time performing on the radio station and meeting "BK" the man in charge at the station.

THE CLASSIC ROCK BAND "SIDE STREET" KEEPS ROCKIN

"Side Street" continues to have a large following and would like to say thank you for all your support. The band has made a lot of friends over the years and wishes all of you the best.

Side Street has openings available for 2010 to perform at your local events. Please mention us to your community committees. Public demand is still the best way to make things happen and always will be. If they tell you we cost too much remind them, YOU ONLY GET WHAT YOU PAY FOR!

LIVE ENTERTAINMENT CAN NEVER BE REPLACED BY PRE-RECORDED MUSIC.
